ADOPTED BY COUNCIL ON 31 May 2016

(Adopted by Council on 31 May 2016)

1. Introduction

A current and accurate Chart of Accounts is an integral part of the accounting systems of the municipality.

This Chart of Accounts is generally consistent with the definitions and procedures presented in the GRAP (General Recognize Accounting Practices) Requirement as well as the General Financial Statistics (GFS Classification) and various budget reform processes as aligned by National Treasury.

(Adopted by Council on 31 May 2016)

(Adopted by Council on 31 May 2016)

3. Policy Statement

Any requested modifications (additions, deletions or changes) to the general ledger chart of accounts must be submitted to the Chief Financial Officer via the General Ledger Chart of Accounts Maintenance Form and accompanied by a statement justifying the business reason for the change.

4. Purpose of the Policy

The general ledger is the primary information repository for the Municipality's business activities and financial condition. Accordingly, the general ledger's financial encoding structure and values (its "chart of accounts") must be maintained accurately to maintain the integrity of the Municipality's financial reporting.

5. Who needs to know this Policy

The finance staff and departmental heads of the Municipality

6. Policy Procedures

In order to maintain accurately the general ledger chart of accounts, only Financial System Support (FSS) located in the office of the Manager: Treasury Services or the Database administrator personnel, if applicable, are authorized to perform production system chart of accounts maintenance or modifications (additions, deletions and changes). (See the Administrator and Security Policy for more detail on security controls over the system.

All requested modifications to the chart of accounts must be submitted to FSS via a signed General Ledger Chart of Accounts Maintenance Form. For detailed instructions on completed the form see Steps for Requesting Changes to the Municipality's Chart of Accounts. All requests also must be accompanied by a statement justifying the business reason for the modification. When additions to the chart of accounts are requested, departments are expected to consider and request deletion of segment values that formerly supported the business operation for which new values are being created.

No chart of account modifications will be considered by the Chief Financial Officer without approval by the Municipality's Budget Office or the Manager: Treasury Services, as appropriate. The appropriate Budget Office must approve modifications to the chart of accounts segments for the Vote, Cost

(Adopted by Council on 31 May 2016)

Centers and Main Ledger. The Chief Financial Officer must approve modifications to the chart of account segments for *Account, Class and Function*. In addition, all Budget Office approved chart of accounts changes must be reviewed and approved by the Chief Financial Officer prior to processing by FSS.

Approved request forms must be submitted to the Budget Office to the attention of the Manager: Treasury Services. All change requests should be submitted at least two weeks prior to initial usage of the account.

All approved chart of accounts modification requests will be processed within one week from the time they are received by FSS. FSS will notify the appropriate Budget Manager, and other interested departments when modifications have been completed.

FSS and Chief Financial Officer periodically will review chart of accounts segment values for dormant values and notify the Budget Manager of the need to request removal of dormant values from those available for usage.

7. Forms

ANNEXURE B

Organisational layout of the Operational Income and Expenditure

New cost centers must be created according to the cart of accounts to ensure continuity and compliance with the NT requirements and MFMA circulars.

With reference to MFMA Circular 10

The VOTE:

Section 1 of the MFMA defines a "VOTE" as:

(Adopted by Council on 31 May 2016)

- a) one of the main <u>segments into which a budget of a municipality is divided</u> for the appropriation of money for the <u>different departments or functional areas</u> of the municipality; and
- b) which specifies the total amount that is appropriated for the purposes of the department or functional area concerned

The term "vote" is used to <u>divide the budget into segments</u> and the council then approves the budget according to these votes via resolution. The definition requires votes to be at the <u>departmental or functional level</u>. The reason for this is that municipalities are organized around departments, which in most instances tend to be linked to specific functions. Senior managers head such departments / functions, which makes it easier for the "vote" of a department to be used to facilitate greater accountability <u>for service delivery and budget implementation</u> over the performance of senior managers, in accordance with their annual performance agreements. For effective accountability, senior managers form part of top management and report directly to the municipal manager (Section 77 of the MFMA).

Definition of "Vote" in terms of departments or functions

The first point to note is that the department needs to be defined in terms of one or more broad functions (e.g. electricity, water and sanitation, etc.). To facilitate comparisons, functions in government must be related to an international classification system like the Government Finance Statistics (GFS) system. GFS functions provide a reasonably high level grouping of related service delivery activities for local government, and it is important that whatever organisational structure a municipality has, it can relate them to GFS sub-functions to the extent this is possible.

High Level "Votes"

The Budget is the mechanism to execute the strategic plan, and must not be confused with a management plan. It must provide high-level strategic objectives for both councilors and the community, and shift the focus towards outputs and outcomes. Previous municipal budget formats have been at the level of every detailed line item allocations, focusing only on inputs, and hence were neither strategic nor transparent.

The new format of the budget focuses on outputs, and is meant to be a reasonable high level strategic document while the service delivery and budget implementation plan (SDBIP) is a more detailed management plan. By requiring the "vote" to be at a high level (department and functional area), the MFMA enables councilors to focus on policy and strategy while providing the mechanisms to hold management accountable for service delivery and budget implementation.

The level of the "vote" for the purposes of the MFMA should therefore be arranged around GFS functions and sub-functions, and aligned to senior managers. Note that

(Adopted by Council on 31 May 2016)

this in most instances does not require organisational changes, although will be aligned to group easier.

Each GFS function is a "vote" and must have associated with it appropriate breakdowns or sub-functions for operating expenditure, capital expenditure and revenue.

One of the key reforms required by the MFMA is to link **measurable performance objectives** to each "vote", to ensure that municipalities are accountable to the community for service delivery as well as expenditure and revenue (See Circular No 13 on the SDBIP). Such measurable performance objectives must also be broken down into specific objectives for sub-functions, to be published in the budget or SDBIP, and incorporated into the performance agreements of all managers in that municipality.

The following page indicates how each GFS function (e.g. electricity) is broken up into sub-functions (e.g. electricity distribution, electricity generation and street lightning) where applicable. The GFS sun-functions are the fundamental basic elements that ideally should not be split up between different departments. Note that it is possible to create event smaller basic elements like GFS sub-sub functions, so that electricity distribution itself can be broken down further.

1. <u>VOTE STRUCTURE</u>

The following HIGH Level summaries must be compiled for budget and reporting purposes:

- A. Executive and Council
- B. Finance and Administration
- C. Corporate Services
- D. Community Services
- E. Technical Services

ANNEXURE D

3. GRAP structure of the main ledger

CHART OF ACCOUNTS – MAIN LEDGER

The chart of accounts for the main ledger is created in such a way to enable the user to create votes in the correct area, as well as the correct linking to the Statement of Financial Position and Cash-Flow.

If the user follows this guideline, the municipality will be in a position to print balanced monthly financial statements (excluding final journals) to ensure full NT compliance reporting.

The votes are created in the sequence of main vote, balance sub vote, and allocation vote.
